Stockpile Heights (mm)	2120 (6'11")
Powerpack	Stage 5 / Diesel
Unladen Weight	3,280Kg

NEW

Product Leaflet

**Screener
GP28**

A Single Deck Vibrating Screener for processing a wide variety of materials on site. The screening plant is mounted onto a car trailer chassis, allowing it to be towed behind any 4x4 Vehicle or Jeep with towing capacity up to 3,500Kg. Getting it to site becomes very simple. Setup is very quick, the four stability legs are dropped at each corner and the conveyors folded out. With the Screenbox & Conveyors running, the machine is ready for material.

Ideally this will be fed with small excavator, skid steer machine or small telehandler with appropriate bucket size. The screen mesh size can be easily changed so that the desired product is produced for the customer.

With its' compact design and impressive performance the GP28 is a versatile machine for topsoil & aggregate. The small efficient powerpack, results in low running costs and is easily accessed for service & maintenance .
